(Full name of utility company) Commonwealth Edison (respondent) is a public utility and is subject to the provisions of the Illinois Public Utilities Act.

In the space below, list the specific section of the law, Commission rule(s), or utility tariffs that you think is involved with your complaint.

Rate 18 standby service (sheet No. 40) under paragraph "Standby Capacity" which states
as follows: "The customer shall elect a level of standby capacity which shall not exceed
the sum of the total capability of the customer's own electric generating facilities."

Have you contacted the Consumer Services Division of the Illinois Commerce Commission about your complaint?

☒ Yes ☐ No

Has your complaint filed with that office been closed?

☒ Yes ☐ No

Please state your complaint briefly. Number each of the paragraphs. Please include time period and dollar amounts involved with your complaint. Use an extra sheet of paper if needed.

1. In April, 2003, Mike Lopez, Senior Account Executive for ComEd, provided Stevenson High School with an initial Rate 18 contract document (dated April 14, 2003) in which ComEd filled in the standby capacity for peak periods as 775KW for this initial Rate 18 contract.
2. The 775KW standby capacity was crossed out and replaced with 0(Zero)KW, initialled by myself. The document was then signed by myself and returned to ComEd, at which time they rejected the document.
3. On July 24, 2003, Mike Lopez provided a rebuttal to Complaint #1623. This rebuttal contained an explanation as to how ComEd determines what the initial standby capacity for Rate 18 is to be, along with what requirements are necessary if the customer wishes to reduce this initial amount. None of this is stated and/or explained in the Rate 18 tariff as filed with the ICC.

Please clearly state what you want the Commission to do in this case:

Ensure that ComEd abides by the Rate 18 tariff as filed with the ICC, allowing the customer to determine their initial level of standby capacity for peak periods.
